Children With Health Needs Who Cannot Attend School Policy

Formally adopted by the Governing Board of:-	Denver VC Primary
On:-	10th May 2023
Chair of Governors:-	Carole Reich
Last updated:-	10th March 2022

1. Aims

This policy aims to ensure that:

- Suitable education is arranged for pupils on roll who cannot attend school due to health needs;
- pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority.

Denver VC Primary School aims to ensure that all children who are unable to attend school due to medical needs, and who would not receive suitable education without such provision, continue to have access to as much education as their medical condition allows, to enable them to reach their full potential.

Due to the nature of their health needs, some children may be admitted to hospital or placed in alternative forms of education provision. We recognise that, whenever possible, pupils should receive their education within their school and the aim of the provision will be to reintegrate pupils back into school as soon as they are well enough.

We understand that we have a continuing role in a pupil's education whilst they are not in school and will work with the Local Authority, healthcare partners and the parents to ensure that all children with medical needs receive the right level of support to enable them to maintain links with their education.

2. Legislation and guidance

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Education Act (1996)
- Equality Act (2010)
- Data Protection Act (2018)
- DfE Ensuring a good education for children who cannot attend school because of health needs (2013)
- DfE Supporting pupils at school with medical conditions (2015)

3. The responsibilities of the school

3.1 If the school makes arrangements

Initially, Denver VC Primary School will attempt to make arrangements to deliver suitable education for children with health needs who cannot attend school.

The class teacher of the pupil will be responsible for preparing work and sharing this with parents/carers. The SENDCo, will be responsible for monitoring these arrangements and supporting the class teacher if required.

A meeting will be made with parents/carers to discuss arrangements for working from home or hospital. A plan will be drawn up detailing agreed actions from the discussion, the plan will be signed by school and parents/carers. The plan will then be carried out to deliver education to the child.

Arrangements could include sending work home, providing remote education via TEAMS, attending a hospital school or a Teaching Assistant may attend the home to deliver lessons.

The pupil will be slowly integrated back into school with either alternative arrangements to make it possible, such as alternative provision for break or lunch times or the pupil may come back into school on a reduced timetable until their health needs have been met. If a reduced timetable is agreed

between school and parents, the relevant paperwork will be completed and submitted to the Attendance Team at Norfolk LA.

3.2 If the Local Authority (LA) makes arrangements

If the school can't make suitable arrangements, Norfolk LA will become responsible for arranging suitable education for these children.

The LA should:

- Provide such education as soon as it is clear that a pupil will be away from school for 15 days or more, whether consecutive or cumulative. They should liaise with the appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the pupil.
- Ensure the education pupils receive is of good quality, allows them to take appropriate qualifications, prevents them from falling behind their peers in school, and allows them to reintegrate successfully back into school as soon as possible.
- Address the needs of individual pupils in arranging provision.
- Have a named officer responsible for the education of children with additional health needs and ensure parents know who this is.
- Have a written, publicly accessible policy statement on their arrangements to comply with their legal duty towards children with additional health needs.
- Review the provision offered regularly to ensure that it continues to be appropriate for the child and that it is providing suitable education.
- Give clear policies on the provision of education for children and young people under and over compulsory school age.

The LA should not:

- Have processes or policies in place which prevent a child from getting the right type of provision and a good education.
- Withhold or reduce the provision, or type of provision, for a child because of how much it will cost.
- Have policies based upon the percentage of time a child is able to attend school rather than whether the child is receiving a suitable education during that attendance.
- Have lists of health conditions which dictate whether or not they will arrange education for children or inflexible policies which result in children going without suitable full-time education (or as much education as their health condition allows them to participate in).

In cases where the LA makes arrangements, Denver VC Primary School will:

- Work constructively with the LA, providers, relevant agencies and parents to ensure the best outcomes for the pupil.
- Share information with the LA and relevant health services as required.
- Help make sure that the provision offered to the pupil is as effective as possible and that the child can be reintegrated back into school successfully.

When reintegration is anticipated, work with the LA to:

- Plan for consistent provision during and after the period of education outside the school, allowing the pupil to access the same curriculum and materials that they would have used in school as far as possible.
- Enable the pupil to stay in touch with school life (e.g. through newsletters, emails, invitations to school events or internet links to lessons from their school).

- Create individually tailored reintegration plans for each child returning to school.
- Consider whether any reasonable adjustments need to be made.

3.3 The Governing Body and Head Teacher are responsible for:

- Ensuring arrangements for pupils who cannot attend school as a result of their medical needs are in place and are effectively implemented.
- Ensuring the termly review of the arrangements made for pupils who cannot attend school due to their medical needs.
- Ensuring the roles and responsibilities of those involved in the arrangements to support the needs of pupils are clear and understood by all.
- Ensuring robust systems are in place for dealing with health emergencies and critical incidents, for both on and off-site activities.
- Ensuring staff with responsibility for supporting pupils with health needs are appropriately trained.
- Appointing a named member of staff who is responsible for pupils with healthcare needs and liaises with parents, pupils, the LA, key workers and others involved in the pupil's care.
- Providing teachers who support pupils with health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.
- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

3.4 The SENCo is responsible for:

- Dealing with pupils who are unable to attend school because of medical needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying pupils' education providers with information about the child's capabilities, progress and outcomes.
- Liaising with the Headteacher, education providers and parents to determine pupils' programmes of study whilst they are absent from school.

3.5 Teachers and Support Staff are responsible for:

- Understanding confidentiality in respect of pupils' health needs.
- Designing lessons and activities in a way that allows those with health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in supporting pupils with health needs and ensuring they attend the required training.
- Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of the individual pupil's health needs.
- Ensuring they are aware of the signs, symptoms and triggers of common life-threatening medical conditions and know what to do in an emergency.
- Keeping parents informed of how their child's health needs are affecting them whilst in the school.

4. Absences

- Parents are advised to refer to our school attendance policy for guidance.
- Absences due to illness will be authorised as per the school's attendance policy.

- Following consultation with parents about the nature of the illness and the ongoing impact of the absence, the school will agree the level of education that may be provided. This may be through provision of schoolwork at home for children who are able to cope with it or through part-time attendance at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their family and relevant members of staff.
- For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the school Attendance Officer will notify Norfolk LA Attendance Team.
- Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.
- For hospital admissions, the appointed named member of staff will liaise with the LA regarding the
- programme that should be followed while the pupil is in hospital.
- The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education otherwise than at school.

5. Support for pupils

Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, parents and, where appropriate, the pupil. The LA expects the school to support pupils with health needs to attend full-time education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments.

- Denver VC Primary School will make reasonable adjustments under pupils' individual healthcare plans (IHCPs), in accordance with the Supporting Pupils with Medical Conditions Policy.
- Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.
- During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.
- Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with their school using the following methods: school newsletters, emails, invitations to school events, cards or letters from peers and staff.
- Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.
- To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:
 - A personalised or part-time timetable, drafted in consultation with the named staff member;
 - access to additional support in school;
 - online access to the curriculum from home;
 - movement of lessons to more accessible rooms;
 - places to rest at school;
 - special exam arrangements to manage anxiety or fatigue.

6. Monitoring arrangements

This policy will be reviewed annually.

This policy will be shared with all teachers and support staff and will be available to access via the school website.

Any changes in the policy will be clearly communicated to all members of staff involved in supporting pupils with additional health needs, and to parents and pupils themselves

7. Definitions

Children who are unable to attend school as a result of their medical needs may include those with:

- Physical health issues
- Physical injuries
- Mental health problems, including anxiety issues
- Emotional difficulties or school refusal
- Progressive conditions
- Terminal illnesses
- Chronic illnesses

Children who are unable to attend mainstream education for health reasons may attend any of the following:

- Hospital school: A special school within a hospital setting where education is provided to give continuity whilst the child is receiving treatment.
- Home tuition services that act as a communication channel between schools and pupils on occasions.
- Where pupils are too ill to attend school and are receiving specialist medical treatment.
- Medical PRUs: These are LA establishments that provide education for children unable to attend their registered school due to their medical needs.
