

# Home Learning Class 2 – summer term

**Weeks 10 – 12: 29.6.20, 6.7.20, 13.7.20**

This is the final three full weeks of the summer term, and what a strange term it has been for us all. I hope you will enjoy the summer holidays and are able to give both the children and yourselves a well -deserved rest from all the hard work you have been doing at home during the school closure. Thank you for the pictures you have sent in. It will be lovely to have all the pupils back in school in September.

**Maths Y2:** There is a three week block on shape, faces and patterns.

There are lots of questions that the children can use their reasoning to find the answers. Just do what you feel you can engage the children in, do not let it become a chore for them.

There are also investigations if you wish to try these when you need something extra to do with the children. They are very useful as they require the children to use their reasoning skills.
