

PROJECT GODWIT

Last year, Class 2 became a Godwit Guardian for Wedge who was headstarted from Welney in 2018.

Wedge was hatched on 22nd May, so it is nearly his birthday. Wedge was seen at Welney last June after spending his first winter in Portugal. I have found out this morning that Wedge arrived back at the Ouse Washes and was spotted on Sunday 1st April.

Due to the impact of Covid 19 the birds will not be released this year, so Project Godwit is running an activity that anyone can take part in. They are asking people to create their own godwit and send in a

picture to them so they can create an online flock, as they are unable to create a real flock of godwits this year. The details can be found in the link below and you can also take part via our social media pages. Jess thought this might be something Denver children would like to do at home during our lockdown period.

Some of the children have regularly asked what happened to Wedge, so I am sure they would love to join in with this activity.
