

# Class 3 Summer Term Sunflower Growing Challenge 2020

25cm

**Ms DeVanche**

Here are my sunflowers, I planted them in a pot with mud and watered them. I hope they grow quickly and have big yellow flowers on them.

**Chloe**

145cm

**Logan and Seren**

I planted our seeds on 20th April 2020 and waited for it to germinate. I recorded the growth in my book. Over the weeks some of the leaves were eaten by caterpillars. Some of the leaves turned yellow so we cut them off as they had done their job.

149cm

**Barney**

My Dad did not do the weeding so it did not grow as well as it could.

180cm

**Jessica**

In its early stages the bottom leaves were eaten by my bunnies.

186cm

**Edward**

I liked watching it grow. Some of our sunflowers fell over when they got too heavy.
