| Upper Key Stage 2: Year 5 \& Year 6 |
| :--- |
| Number: Place Value, Addition, Subtraction, Multiplication, Division, Fractions |
| including decimals and percentages, Ratio and proportion, Algebra |
| Measure: Length, Mass, Capacity, Scaling, Perimeter, Time, Imperial Units |
| Geometry: Properties of shape, Angles, Co-ordinate, Translation, Reflection |
| Statistics: Graphs |

## Objectives for Number Upper KS2 : Y5 Autumn

| Number | Read, write, order and compare numbers to at least 1,000,000 and determine the value of each <br> digit. |
| :--- | :--- |
| Count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000. <br> Interpret negative numbers in context, count forwards and backwards with positive and negative <br> whole numbers, including through zero. |  |
|  | Round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000 and 100,000.Solve number problems and practical problems that involve all of the above. Read Roman numerals <br> to $1000(M)$ and recognise years written in Roman numerals. |
| Add and subtract whole numbers with more than 4 digits, including using formal written methods <br> (columnar addition and subtraction). |  |
| Add and subtract numbers mentally with increasingly large numbers |  |
| Use rounding to check answers to calculations and determine, in the context of a problem, levels <br> of accuracy |  |

|  | Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why. |
| :---: | :---: |
|  | Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. |
|  | Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers. |
|  | Establish whether a number up to 100 is prime and recall prime numbers up to 19. |
|  | Multiply and divide whole numbers and those involving decimals by 10,100 and 1000. |
|  | Recognise and use square numbers and cube numbers, and the notation for squared ( ${ }^{2}$ ) and cubed ( ${ }^{3}$ ). |
|  | Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes. |
| Measure | Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres |
|  | Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres $\left(\mathrm{cm}^{2}\right)$ and square metres $\left(\mathrm{m}^{2}\right)$ and estimate the area of irregular shapes. |
| Statistics | Solve comparison, sum and difference problems using information presented in a line graph. |
|  | Complete, read and interpret information in tables, including timetables. |

| Objectives for Number Upper KS2 : Y5 Spring |  |
| :---: | :---: |
| Number | Multiply numbers up to 4 digits by a one- or two- digit number using a formal written method, including long multiplication for two-digit numbers |
|  | Multiply and divide numbers mentally drawing upon known facts |
|  | Divide numbers up to 4 digits by a one- or two-digit number using formal method of short division and interpret remainders appropriately for the context |

|  | Compare and order fractions whose denominators are all multiples of the same number |
| :--- | :--- |
|  | Identify, name and write equivalent fractions of a given fraction, represented visually, including <br> tenths and hundredths |
|  | Recognise mixed numbers and improper fractions and convert from one form to the other and <br> write mathematical statements $>1$ as a mixed number (for example, $\frac{2}{5}+\frac{4}{5}=\frac{6}{5}=1 \frac{1}{5}$ |
|  | Add and subtract fractions with the same denominator and denominators that are multiples of the <br> same number |
|  | Multiply proper fractions and mixed numbers by whole numbers, supported by materials and <br> diagrams |
|  | Read and write decimal numbers as fractions (for example, $0.71=\frac{71}{100}$ |
|  | Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents |
|  | Round decimals with two decimal places to the nearest whole number and to one decimal place |
| Read, write, order and compare numbers with up to three decimal places. |  |
|  | Recognise the per cent (\%) symbol and understand that per cent relate to 'number of parts per <br> hundred' and write percentages as a fraction with denominator 100, and as a decimal |
| Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}, ~$$\frac{1}{4}, \frac{1}{5}, \frac{2}{5}, \frac{4}{5}$ and those |  |
| fractions with a denominator of a multiple of 10 or 25 |  |

| Objectives for Number Upper KS2 : Y5 Summer |  |
| :--- | :--- |
| Number | Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents |
|  | Multiply and divide whole numbers and those involving decimals by 10,100 and 1000 |
|  | Read, write, order and compare numbers with up to three decimal places. |

| Measure | Convert between different units ofmetric measure |
| :---: | :---: |
|  | Understand and use approximate equivalences between metric units and common imperial units such as inches, poinds and pints |
|  | Estimate volume |
|  | Solve problems involving converting between units of time |
|  | Use all four operations to solve problems involving measure (for example, length, mass, volume, money) using decimal notation, including scaling. |
| Geometry | Identify 3-D shapes, including cubes and other cuboids, from 2-D representations |
|  | Know angles are measured indegrees: estimate and compare acute, obtuse and reflex angles |
|  | Draw given angles, and measure them in degrees ( ) |
|  | Identify: <br> - angles at a point and one whole turn <br> - angles at a point on a straight line and $\frac{1}{2}$ a turn <br> - other multiples of $90^{\circ}$ |
|  | Use the properties of rectangles to deduce related facts and find missing lengths and angles |
|  | Distinguish between regular and irregular polygons bsed on reasoning about equal sides and angles |
| Statistics | Solve comparison, sum and difference problems using information presented in a line graph |
|  | Complete, read and interpret informationin tables, including timetables. |

| Objectives for Number Upper KS2 : Y6 Autumn |  |  |
| :--- | :--- | :---: |
| Number | Read, write, order and compare numbers up to 10,000,000 and determine the value of each digit. |  |
|  | Round any whole number to a required degree of accuracy. |  |
|  | Use negative numbers in context, and calculate intervals across zero. |  |
|  | Solve number and practical problems that involve all of the above. |  |

|  | Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication. |
| :---: | :---: |
|  | Divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context |
|  | Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context. |
|  | Perform mental calculations, including with mixed operations and large numbers. |
|  | Identify common factors, common multiples and prime numbers. |
|  | Use their knowledge of the order of operations to carry out calculations involving the four operations. |
|  | Solve problems involving addition, subtraction, multiplication and division. Use common factors to simplify fractions; use common multiples to express fractions in the same denomination |
|  | Compare and order fractions, including fractions > 1. |
|  | Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions. |
|  | Multiply simple pairs of proper fractions, writing the answer in its simplest form (for example, $\frac{1}{4} \times \frac{1}{2}$ $=\frac{1}{8}$ ). |
|  | Divide proper fractions by whole numbers (for example, $\frac{1}{3} \div 2=\frac{1}{6}$ ). |
|  | Use written division methods in cases where the answer has up to two decimal places. |
| Ratio and Proportion | Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. |
| Geometry | Describe positions on the full coordinate grid (all four quadrants). |
|  | Draw and translate simple shapes on the coordinate plane, and reflect them in the axes. |

## Objectives for Number Upper KS2 : Y6 Spring

| Number | Compare and order fractions, including fractions $>1$. |
| :---: | :---: |
|  | Multiply simple pairs of proper fractions, writing the answer in its simplest form (for example, $\frac{1}{4} \times \frac{1}{2}=\frac{1}{8}$ ). |
|  | Associate a fraction with division and calculate decimal fraction equivalents (for example, 0.375) for a simple fraction (for example, $\frac{3}{8}$ ). |
|  | Identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10,100 and 1000 giving answers up to three decimal places. |
|  | Multiply one-digit numbers with up to two decimal places by whole numbers. |
|  | Use written division methods in cases where the answer has up to two decimal places. |
|  | Solve problems which require answers to be rounded to specified degrees of accuracy. |
|  | Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts. |
|  | Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. |
|  | Solve problems involving the calculation of percentages (for example, of measures, and such as $15 \%$ of 360 ) and the use of percentages for comparison. |
|  | Solve problems involving similar shapes where the scale factor is known or can be found. |
|  | Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. |
| Algebra | Use simple formulae. |
|  | Generate and describe linear number sequences. |
|  | Express missing number problems algebraically. |
|  | Find pairs of numbers that satisfy an equation with two unknowns. |

| Measure | Enumerate possibilities of combinations of two variables. |
| :--- | :--- |
|  | Solve problems involving the calculation and conversion of units of measure, using decimal notation <br> up to three decimal places where appropriate |
|  | Use, read, write and convert between standard units, converting measurements of length, mass, <br> volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal <br> notation to up to three decimal places. |
|  | Convert between miles and kilometres. |
|  | Recognise that shapes with the same areas can have different perimeters and vice versa. |
|  | Recognise when it is possible to use formulae for area and volume of shapes. |
|  | Calculate the area of parallelograms and triangles. |
|  | Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic <br> centimetres $\left(\mathrm{cm}^{3}\right)$ and cubic metres $\left(\mathrm{m}^{3}\right)$, and extending to other units <br> (for example, $\mathrm{mm}^{3}$ and $\left.\mathrm{km}^{3}\right)$. |

| Objectives for Number Upper KS2 : Y6 Summer |  |
| :--- | :--- |
| Number | Use their knowledge of the order of operations to carry out calculations involving the four <br> operations |
| Solve addition and subtraction multi-step problems in contexts, deciding which operations and <br> methods to use and why |  |
|  | Solve problems involving addition, subtraction, multiplication and divisionUse estimation to check answers to calculations and determine, in the context of a problem, an <br> appropriate degree of accuracy |

|  | Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts |
| :---: | :---: |
| Ratio and proportion | Solve problems involving the calculation of percentages and the use of percentages for comparison |
|  | Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples |
| Measure | Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate. |
|  | Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation up to three decimal places |
| Geometry | Draw 2-D shapes using given dimensions and angles |
|  | Recognise, describe and build simple 3-D shapes, including making nets |
|  | Compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons |
|  | Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius |
|  | Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles. |
|  | Describe positions of the full co-ordinate grid |
| Statistics | Interpret and construct pie charts and line graphs and use these to solve problems |
|  | Calculate and interpret the mean as an average |
